THE BI-MONTHLY

Newsletter of the Bisexual Center

Volume 1, Number 2 January/February 1977

1977 - bye to the bi-centennial

by Jeanne paslé-green and Jad King

If the first general meeting of the Bi Center was any indication, we all have a promising year beginning.

On November 7th, in a space donated by the National Sex Forum at 1523 Franklin in San Francisco, we all waited to see what the response to our initial efforts and first newsletter would be. Would anyone show up? How many? Who would they be? Where would they be coming from? How would we all feel together?

The steering committee had worked hard, putting in our energy for four months. Who else besides us were we doing all this for? Where was the next burst of energy going to come from? By eight o'clock, over eighty people were present to answer our questions. Somewhat shyly, supportive and encouraging feedback was expressed. We were pleased and relieved to discover that we are indeed a new, visible, growing community.

The second general meeting will be held at the same location on Sunday, January 16th from 7:00 - 10:00 p.m. We will be trying out a new format to facilitate more participation: the first hour will be gathering and introductions and a filling-in of current information and up-coming events. The second hour we will break up into small groups to discuss what is needed or wanted of a bisexual community center. Each group will deal with a particular topic: philosophy and objectives; social and cultural events; workshops, groups, counselling and panel discussions; living and working collectives; as well as whatever else is suggested. In the third hour we will all meet together again and a spokesperson from each group will lead planning discussions. We would hope that people will come to the meeting prepared to speak up and work towards a more active involvement with the Bi-Center, as well as to enjoy the good company.

We have all worked hard to open ourselves, receiving and causing changes each in our own way. Now in 1977, let's work together, supporting and enjoying each other while growing strong as a community.

This is the spirit in which we begin a NEW YEAR.

We Get Letters...

Dear Bi Center:

I am in general support of what you are doing. My concern about the Bi Center is this: the direction and politics of the newsletter seem vague. Is the Center supposed to represent a bisexual "movement" for civil rights and liberation? If so, I think the reason that such a movement could exist--to move as a group against a force which is oppressive to individuals who belong to that group--must be explained; and the social oppression must be carefully defined.

Otherwise, without more clear direction, the Center runs the danger of becoming a hedonist club, an escape for people who won't confront the extreme social problems that we all have to deal with, to some degree--e.g. sexism, racism, or gay oppression.

In essential agreement,

L.B.

thank you!

To Whom it May Concern:

I'm <u>real</u> excited about the Center and all your efforts. I've always envied the community Lesbians and Gay Men have and now I am looking forward to helping begin a Bisexual community. We are almost always invisible. Now we won't be.

A loving criticism;

I don't like that beautiful cunt-cock flower to have one vulva and three penises...one erect and two non-erect ones at that. Yes, they are in the background, but I would much prefer to have one set of genitals per sex. This is picky but somehow in the name of equality, where are the woman's ovaries in the picture? The testes are there. <u>And</u>, I think it is beautiful!

Come Dance With Us!!

A group of men and women is getting together to share in dance as movement, as physical exercise, and as a vehicle for self expression. If you are interested in participating in such an activity, call 661-8328 and leave a message for Meg. There will be a meeting on Tuesday, Jan. 4th at 6 p.m.

Golden Gate Outing

Meet for a wholesome day in Golden Gate Park for running, playing catch, and having fun. Bring food to share. Sunday, Jan. 23rd from noon to 4 p.m. Baseball Meadows, 2nd base (at the end of 8th Ave., near Lincoln Way.) Call Bonnie Sankey at 668-7413.

New Year's Eve Party

San Francisco Sex Information (always operating on the edge of financial nonexistence) will be the benefactor of the proceeds from a New Year's Eve party, Friday, Dec. 31, at 64 Pierce St., San Francisco. All proceeds ($3 suggested donation) will go to SFSI. So, if you like to party, have fun and dance, and would like to donate a small amount of money to a very good cause, come! Enjoy!

San Francisco Sex Information Training

For over four years now, the Bay Area has been blessed with its very own community-supported, all volunteer sex information hot line. During that time, San Francisco Sex Information (SFSI) has answered over 30,000 calls dealing with everything from abortion to virginity, providing non-judgmental sex-positive information. The volunteers commit themselves to work one three hour shift per week for six months, after successfully completing an intensive forty-hour training program. While not free, the training is a bargain at $75, and many local colleges and universities give credit for it. If you are interested or would like more information, call SFSI between 3 and 9pm, Monday through Friday, at 665-7300.

Bisexual Coffeehouse

Many persons have expressed a need for a place bisexuals can meet to socialize. If you would like to participate in the creation of San Francisco's first open bisexual coffeehouse, please let us know. We can use investment money, energy, ideas, space, love, etc. Contact Lew Porter at the Bi Center, 24 California St., #312, San Francisco, CA 94111.

Couple's Group

One lifestyle choice is to ever deepen the emotional connection to self, a primary partner, and other friends.

We are committed to this and interested in how other couples form and live their relationship with each other and how they form their individual and couple relationships with others.

We want to be in a free, ongoing, leaderless support group of 4 or 5 couples to share feelings and growth. If you are interested, call Ginny or Jack at 658-1162.

Bisexual House

We are 3 men in a group-owned house at 2207 Haste St. in Berkeley who are trying to live a bisexual, feminist lifestyle.

We would like to meet and talk with other people who are interested in or would like to live in such a household. There are three spaces available in our house. Call 845-7912 (home); 285-3200, or 843-5372. Ask for Al, Dennis or Tom.

SPECIAL NOTICE

The company we were using for our mailing address and phone answering service went out of business recently. Therefore, we now have the following new address and phone number: The Bi Center, 24 California St., #312, San Francisco, CA 94111; (415) 781-8390.

Dear Jeanne

Dear Brothers
Sisters
Mothers
Fathers
Children
Babies,

Last night I made Love
with a warm
body - open
Sister
We had just met
and recognized in one another
a person searching
for Freedom
to Laugh
and Touch
and Fuck
and Be Friends
and Cry
and not Fuck
and on to infinity
Hello Julie
We told each other our stories
We found reassurance in each other's
Openness
We discovered that we both felt
that silent pressure
from the old culture
not to be joyous
We told each other we were
Bisexual
and Julie described how in her
first experience with a woman
she had felt she was
making Love
with Herself
and I said
that I had not yet
truly surrendered
to a man
and that I had recently
realized
that I want to meet
some Gay Brothers
and that my old world
antilife
self
had been saying:
"Don't get into any new
scary
situations
Don't come"
And we both had wonderful
orgasms
because we didn't
need
them
We were already
good roll-around
huggin friends
and because we both
wanted
to come
and would do it with
Brother
or Sister
or Self
or whoever would meet us
joyously

Jeanne Jeanne
I love you
what can I tell you
and the world
about my Sexual Liberation?
I know that sex lib
doesn't mean shit
Gettin it Together
means gettin it
All
Together
means you can't
truly fuck
until you can truly cry
For yourself
your lover
the dead kitten
we found in the shed this morning
the burning people in Vietnam
the parents who transmitted
kineticaly
all the fuck-ups of the world
right into our
Baby Bodies
It occurs to me
that just as I no longer
want to write man
when I mean woman and man
why should I write
Fuck Up
in a pejorative way
how much that says
about us
that the heaviest
most satisfying
curse word
is Fuck
well Fuck it
Let's all us outlaws
proclaim ourselves
Angels
naked angels
of the revolution

BISEXUAL ADVOCACY

By Hogie Wyckoff

Let me preface this statement by acknowledging the limitations involved in using a label like "bisexual." It does not give a clear description of a specific individual's sexual-love preference, since we often tend to express a preference for the same sex or opposite sex love partners. So perhaps a more accurate term would be "ambisexual" which denotes an emphasis on one or the other. But for simplicity I will stick with bisexual here because for most people it means someone who sexually loves both sexes.

As a woman and feminist I want to speak out in behalf of bisexuality in order to support women who want to develop their loving feelings for women into a fuller intimacy. Many women get much of their emotional needs met with women, yet they are afraid to act on glimmerings of feelings of sexual attraction for women because they lack permission and support. They feel pressed to choose between being straight or lesbian, which are the only two apparent alternatives. Many women feel they cannot get support to love women *without choosing to be completely* separate from men. And although many women are not getting what they need from men, they do not want to separate from men entirely.

I strongly support women to love other women fully without making an either/or straight or gay choice. And I am committed to work in the public sphere to make bisexuality a more visible and supported lifestyle.

Personally, I am thirsty for such visibility. I enjoy loving both women and men and prefer a non-monogamous lifestyle. Making the world safe for bisexuality certainly synthesizes the personal with the political for me. I long to see men be loving with men. I'm convinced that if men expanded their loving feelings to men this world would benefit greatly.

Bisexuality obviously provides women with more options. Many women do not get the love they need and are unable to share the love they feel. Being able to love women not only doubles a woman's possibilities, it also puts her in a more independent and powerful position. She no longer needs to put up with unfair exchanges or shortages that are the result of sexism. For instance, we see young women relating to older men but the opposite is rare.

Another side benefit of bisexuality is that it promotes androgeny. Sex roles will be more easily eliminated when women and men feel free to develop their own feminine and masculine sides mentally, emotionally, and physically.

In order to make bisexuality more accessable to interested people I want to share with you some things I learned making the transition from straight to bi.

After some time of being in the women's movement and relearning to love and respect my sisters I began thinking self-*consciously about being physically loving* with women. It became obvious to me and a woman friend that we felt attracted and turned on to each other. We had a very nervous and exciting talk about what we wanted to do about it. We decided that we wanted to be lovers although it was a frightening thing for both of us because of all the messages we had received throughout our lives about how it was not all right to be homosexual. My male lover, with whom I had shared a long, loving and intimate relationship, gave me much support to "come out"

We were both painfully blind to our own and each other's heterosexist prejudices and neglected to provide ourselves with necessary protective agreements.

Often straight women who want to come out have built-in heterosexual prejudices that collude with the sexism in our society. Our gut reactions have all been programmed for being loving and sexy with men, not with women. I am also disturbed by a tendency in which it has become "politically correct" or otherwise fashionable to be gay, and I think that it is possible that this will promote women into wanting to be gay out of competitive or politically inadequate feelings, rather than wanting to be gay because it's what they truly want. In an effort to learn from our mistakes and to support women thinking of coming out I want to offer some suggestions for anti-heterosexist agreements or contracts that women can make which would have been helpful to us:

First, expose any opinions you have that women's lovings are not as good or as powerful as men's. Don't keep these opinions secret.

Second, agree to actively fight these prejudices and ask others for support to do so.

Third, say honestly as soon as you get in touch with them, any one-down-comparative feelings you have in relation to men; trust your guts and get an accounting for your feelings from your lover.

And briefly, here are some suggestions for the process of coming out:

First, decide whether this is what you really want to do in your very inner self, rather than something you think you should want to do. Decide whether you truly want to see yourself as bisexual, that is, valuing both women's and men's lovings. Second, understand that this may not be where your guts are as yet, so go in stages that are fast and risky enough so that your feelings can actually make changes but slow enough that you don't scare yourself so badly that you want to give up. You are not really creating new feelings but just getting in touch with ones that you already have and haven't yet reclaimed.

Third, work on loving yourself as well as other women and be honest about heterosexist prejudices you have incorporated.

Fourth, commit yourself to struggle with a woman who emotionally and physically turns you on and who feels turned on about being loving with you.

I want to encourage women who are relating to women to be loving in public. The impact of this is profound because it is beautiful to behold and puts straight people in touch with that truth, while at the same time it supports gay people publicly. I hope eventually we can organize ourselves well enough to make it safe for women to be loving in public whenever they want to be without fear of physical attack or losing our jobs, homes or friends.

I want to especially stress the unavoidable connections between heterosexism and sexism. In choosing to be bisexual we must choose against the oppression of women not just for twice as many people to choose from on Friday evening. Bisexuality without feminism is like mere sexual freedom. It is empty and unsatisfactory for women.

In closing I want to say to women who are thinking about coming out: come out sisters; take your time about it, enjoy yourselves, love yourselves, love your sisters and love those of your brothers who earn that precious love.
